

Datasheet Eye wash bottle BARIKOS KS

Designation:	BARIKOS KS Eye wash bottle with tilting valve - with durable filling (according to European standard - DIN EN 15154-4)	
Description:	Plastic bottle transparent with imprinted pictogram, with red spray head (eye well) and white protective cap, riser tube inside with tilt valve, with protective seal: For single use only.	
Article-Number:	954004	
Application:	Eye rinsing while standing / sitting and lying down as a first aid measure for rinsing out foreign bodies and foreign substances.	
Standards:	DIN EN 15154-4 Safety safety showers - Part 4: Eye showers without water connection	
Contents / filling:	620 ml pH-neutral, mineralized water, no chemical additives, no contamination	
Materials:	Bottle body	Soft-Polyethylene
	Closure cap	Hard-Polyethylene
	Hose	Polyethylene
	Spray head	Polyethylene
	Tilt valve body	Polystyrene
	Tilt valve ring	Polymethylene oxide
Dimensions:	approx. 90 x 70 x 250 mm	
Weight:	approx. 750 grams	
Handling:	Standing / sitting: By squeezing the bottle walls together, the irrigation fluid is pushed up the riser tube and reaches the affected eye through the spray head, collects in the eye socket and is drained through the side outlet channels in a targeted manner. When lying down: The irrigation fluid runs through the open tilt valve.	
Storage:	Room temperature. Protect from cold and heat! Do not expose to direct sunlight!	
Warning:	The rinse does not replace an examination by an ophthalmologist!	
Durability:	2 years - expiry date indicated on adhesive label YYYY/MM.	
BG regulations:	BGV A1 Employer's liability insurance association regulation for safety and health at work - accident prevention regulation - principles of prevention	
BG information:	BGI 850-0 Employer's liability insurance association information for safety and health at work - Safe working in laboratories - Chapter 6 Technical protective measures
