

## Datasheet    Protection shield Contracid I 0,8mm

**Designation:** Contracid I 0.8 mm face shield  
Personal protective equipment

**Description:** The shield consists of a support body and a visor.  
The support body (shield holder) consists of a vulcanized fibre bracket with foam padding, two plastic screws (with nuts) attached to the side for fastening the visor and a rubber tensioning strap with two strap sliders.  
The screen has two holes for fastening to the support body and is covered with protective film on both sides.  
The viewing panel is infinitely adjustable - can be folded up - and can be locked in any position.

**Article-Number:** 951251

**Application:** Protection of the face against impacting particles and liquids, e.g.- flying chips, splinters, sparks during mechanical work (turning, milling, grinding ...) e.g. - liquid splashes/drops when filling or decanting chemicals (acids, alkalis)  
The protective shield is worn directly on the head.

**Standards:** DIN EN 166                      Personal eye protection

<b>Materials:</b>	Frame	Vulcanized fibre, red, with foam tape, black
