## Datasheet Half mask 600

Designation: Half mask 600

EN 140 with round thread connection

Breathing connection for respiratory protective devices

Description: Mask body made of natural rubber compound covers nose,

mouth and chin

Article-Number: 912500

Use: - In conjunction with breathing filter as filter device

- In conjunction with compressed air hose device as an

insulating device

Round threaded connector with inhalation valve, front,

two lateral exhalation valves and attached textile rubber strap with adjustable

textile rubber strap with infinitely adjustable sliders

Function: The inhaled air flows through the inhalation valve to the airways.

The exhaled air is released directly into the open air through two exhalation

valves.

Standards: DIN EN 133 Respiratory protective devices - Classification

DIN EN 140 Respiratory protective devices - Half masks and

quarter masks

Materials: Mask body Natural rubber compound, black

Component Strap Metal, textile rubber, two-ply

Connector Polvethylene Sealing ring/E-valve seat Rubber Inhalation valve disk Para rubber Exhalation valve housing Polyamide Polyamide Exhalation valve screw ring Exhalation valve disk Rubber Polyethylene Exhalation valve protective cap Polyamide Tensioning strap

Condensation water sponge Viscose

Dimensions: approx. 105 x 130 x 120 mm (folding box)

Weight: approx. 160 grams

Storability: Cleaned and dried masks can be stored in dust-tight cabinets or special

storage boxes (see accessories). Care must be taken to ensure that no tensile or compressive stresses occur in order to avoid permanent deformation and cracking. Rooms in which masks are stored must be cool and dry and free from gases and vapors. Exposure to strong light, direct sunlight and sources

of heat radiation must be avoided.

Revision 11.2023 - Errors and omissions excepted. All data are non-binding guide values.

With Safety.

## Datasheet Half mask 600

Use: Only properly maintained half masks may be used. Before putting on the

mask, always check that the sealing ring is correctly seated in the connector.

Instructions for use: The use of breathing filters requires a basic knowledge of the function and

handling of respiratory protective devices. Information on this can be found in

the trade association regulations and rules, in particular in DGUV  $\mbox{\it Rule}$ 

112-190.

The use of breathing apparatus generally means additional strain for the

person wearing the breathing apparatus.

Most respiratory protective devices require occupational health screening in accordance with the "Ordinance on Occupational Health Care" (ArbMedVV).

Damaged masks must not be used.

Rules / regulations: Regulation (EU) 2016/425 on personal protective equipment

PPE Usage Ordinance (PSA-BV)

Ordinance on Occupational Health Care (ArbMedVV)

BGV A1 Employer's Liability Insurance Association Regulation for Safety and Health at Work - Accident Prevention Regulation - Principles of Prevention

DGUV Rule 112-190 Employer's liability insurance association rules for safety

and health at work - "Use of respiratory protective equipment"

Hazardous Substances Ordinance (GefStoffV) with associated Technical

Rules for Hazardous Substances (TRGS), in particular TRGS 402 "Determination and assessment of hazards during activities involving

hazardous substances: Inhalative exposure"

and other technical rules for hazardous substances.

Revision 11.2023 – Errors and omissions excepted. All data are non-binding guide values.

With Safety.
