Quarter mask 500

With Safety.

BR-Article-No.:	912100																				
Article-Name:	Quarter mask 500																				
Article-Denomination:	Quarter mask EN 140 with standard thread connector acc. EN 148-1																				
Kind of Article:	Face piece acc. DIN EN 140 for respiratory protection (Personal protection equipment)																				
Use:	<ul style="list-style-type: none">- Connected with a breathing filter as filtering device- Connected with a compressed air line breathing apparatus as an insulated breathing protection device																				
Description:	Mask body of rubber mixture covering mouth and nose, standard thread connector piece with inhalation valve, two lateral exhalation valves, adjustable textile rubber harness fixed at the exhalation valve housings																				
Function:	The air drawn in passes the inhalation valve. The exhalation air flows through two exhalation valves directly to the ambient air.																				
Materials:	<table><tr><td>Mask body</td><td>rubber mixture</td></tr><tr><td>Connector piece</td><td>Polyethylene</td></tr><tr><td>Harness</td><td>Textile rubber</td></tr><tr><td>Inhalation valve seat with gasket</td><td>rubber</td></tr><tr><td>Inhalation valve membrane</td><td>Para rubber</td></tr><tr><td>Exhalation valve housing and screw ring</td><td>Polyamide</td></tr><tr><td>Exhalation valve membrane</td><td>rubber</td></tr><tr><td>Exhalation valve cover</td><td>Polyethylene</td></tr><tr><td>Fixing clamp</td><td>Polyamide</td></tr><tr><td>Sweat absorbing sponge</td><td>Viscose</td></tr></table>	Mask body	rubber mixture	Connector piece	Polyethylene	Harness	Textile rubber	Inhalation valve seat with gasket	rubber	Inhalation valve membrane	Para rubber	Exhalation valve housing and screw ring	Polyamide	Exhalation valve membrane	rubber	Exhalation valve cover	Polyethylene	Fixing clamp	Polyamide	Sweat absorbing sponge	Viscose
Mask body	rubber mixture																				
Connector piece	Polyethylene																				
Harness	Textile rubber																				
Inhalation valve seat with gasket	rubber																				
Inhalation valve membrane	Para rubber																				
Exhalation valve housing and screw ring	Polyamide																				
Exhalation valve membrane	rubber																				
Exhalation valve cover	Polyethylene																				
Fixing clamp	Polyamide																				
Sweat absorbing sponge	Viscose																				
Measurements:	approx. 105 x 130 x 120 mm (box)																				
Weight:	approx. 150 grams																				
Marking:	500 BARIKOS/BR-Logo CE 0158 EN 140																				
Storage:	Room temperature protected against heat, cold and humidity																				
Advice:	Follow instructions for use																				

Revision 09.2016 – Errors and omissions excepted. All data are non-binding guide values.
